"DON'T MAKE ME THINK"

PROFILE

Web developer with a passion for making products intuitive and beautiful. Able to translate abstract ideas into visual web components. Developed a somatotype web app, a nation-ranking ecommerce website, contributed to the improvement of European Agencies and Associations CMS platforms, and designed family offices asset management website and app. Translating solutions into code and working across many different APIs, third-party integrations, and databases. Always keeps up to date with the latest technologies and innovations. Experienced team leader, player, and independent worker, who likes to achieve and deliver. Enjoys working with people who ask strong questions, have visual taste and logic, a clear vision, an entrepreneurial mindset, and communicate short, sweet, and concisely.

SKILLS

Excellent in the frontend, making visually attractive designs, interactive, responsive, and user friendly.

Sufficiency in the backend, good understanding of project structure, MVC, ORM, and database design.

Competent with version control systems and basic know-how of testing, deployment and hosting.

TECHNICAL SKILLS

Frontend: Javascript, Typescript, React, Vue.js, Wordpress, Bootstrap5, MUI, Axios, Three.js, CSS3, Affinity Publisher, Figma, Flourish

Backend: Node.js, MongoDB, MySQL

Devops: Heroku, Godaddy, Render, WPengine

Operating Systems: Mac

Other: Remote working, VS Code, Git, Github, Jira, Agile Methodology, GDPR, integration testing (Postman)
